Hyojin Bernabe | Full Stack Developer

Baguio, Philippines (UTC+8) | +63 999 575 0080 | hyojinbernabe7@gmail.com | LinkedIn | github.com/hyojinbernabe

SUMMARY

Full stack developer working in TypeScript, React, Next.js, and Flutter. Built web and mobile features fully remote for a health startup and a digital agency.

EXPERIENCE

Mobile Developer | ZuraLog *Mar 2026 – Aug 2026*

- Built features for ZuraLog's **Flutter** app on iOS and Android, an AI health coach that pulls data from Apple Health, Health Connect, and Strava.
- Worked on the in-app AI chat, which streams replies over WebSockets and renders them as markdown.
- Added Google and Apple sign-in and Firebase push notifications.

Full Stack Developer | FLH Media *Jul 2026 – Sep 2026*

- Built the agency's website, flhmedia.com, in **Next.js** and Tailwind CSS, deployed on Vercel.
- Made the scroll animations with GSAP and Lenis, and a contact form that emails inquiries through Nodemailer.

Full Stack Developer Intern | Money Trees *Feb 2025 – Apr 2025*

- Made the user onboarding for a Bible study app in **Expo**, inside a monorepo.
- Redesigned web dashboards for an eBook library and shipped production hotfixes.

PROJECTS

Globit Transient | Next.js, PostgreSQL, Prisma *2025 – 2026*

- Built a booking site for a short-stay rental, with live availability checks that block double bookings.
- Added an AI assistant with the Vercel AI SDK that answers guest questions, plus an admin dashboard with booking calendars and occupancy charts.

Phantom | Tauri, React, TypeScript *2026*

- Built the desktop dashboard for an AI tool that finds what is slowing down a gaming PC. Entered in The Next Gen 2026 competition.

Clinic Records System | MongoDB, Express, React, Node.js *2023*

- Wrote most of the React frontend for a system that moved a university clinic's paper patient records online, in a team of three.

SKILLS

Languages: TypeScript, JavaScript, Dart, PHP, Python, SQL

Frameworks: React, Next.js, Flutter, Expo, Node.js, Express, Laravel, Tailwind CSS

Data and tools: PostgreSQL, MySQL, MongoDB, Prisma, Firebase, Supabase, Git, Vercel, Figma

EDUCATION

B.S. Computer Science | University of Baguio *2021 – 2026*
